

Manage Your Records in Record Time

FileSymphony

Finally...Imaging Made Simple

- Start Scanning Immediately....No Training Necessary
- Use Familiar Point-&-Click Commands
- FileSymphony™ Uses Your Own Company's Lingo
- You Can View Files From Anywhere
- FileSymphony™ Is Scalable & Flexible
- The Cost-Effective Way To Enter The Imaging Age
- Say Hello To FileSymphony™ And Say Goodbye To Your Filing Problems

At long last, someone has built a file imaging system that is as easy to use as the paper files it replaces.

FileSymphony™ is built to mimic your current manual filing system...so it is easy to learn and to use. With simple point-&-click commands, you can scan, index, and view your files without every leaving the familiar Internet Browser user interface.

- Simple User Interface
- No Maintenance
- Expandable
- Single or Multiple Locations
- Fast Implementation
